## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/30/2005 has been entered.

### ***Claim Objections***

2. Applicant is advised that should any one of claim 8, 38 or 47 be found allowable, the other claim(s), including any duplicate dependent claims, will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

### ***Claim Rejections - 35 USC § 102/103***

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 8-16, 26, 27 and 34-47 are rejected under 35 U.S.C. 102(b or e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Horowitz (U.S. 3,401,049, as applied to claims 8-10, 12-16 & 34), Horowitz et al. (U.S. 5,232,748) or Sanduja et al. (U.S. 6,368,369), for reasons stated in previous Office actions.

***Response to Arguments***

5. Applicant's arguments filed 06/30/2005 have been fully considered but they are not persuasive.

6. Applicant's argument center of the interpretation of the claims as requiring a filter material. However, applicant's claims are still to the coating composition, which, evidenced by the items listed as part to the coating composition being claimed (see claims 8, 26, 27, 38 or 47), does not require a filter material **as a component**. Applicant is not claiming a filter material coated with a particular composition. Instead, applicant is claiming the composition itself, which is the same as the composition taught in the prior art, even if not as a coating for filter materials.

As such, the art rejections are maintained.
